Sir:

Pursuant to Section 103(c) of The Comprehensive Environmental Response, Compensation and Liability Act of 1980, Union Electric Company hereby submits one (1) copy of EPA Form 8900-1 for each site where the company either knows or suspects that hazardous wastes may have been stored, treated or disposed of in the past.

In preparing these reports Union Electric Company utilized the best information readily available to company personnel.

Union Electric has submitted these reports in order to conscientiously comply with the law and to decrease its liability. In so doing, the company has submitted reports for sites that may not have to be reported under a strict interpretation of the law. For example, we have submitted a site report for all of our power plants because we suspect (but usually cannot verify) that relatively small quantities of solvents and other hazardous wastes may have been disposed of at these plants in the past. Also, in completing these forms we have tried to comply with the very broad definitions contained in the statute and policy statement. For example, because of the very broad definitions of "release" and "environment," we have often checked that release to the environment was "likely," where, in fact, there may very well have been no release at all.

Kindly acknowledge receipt of this filing.

Very truly yours,

Michael F. Barnes
